News Briefs

Power outages

A power outage is scheduled for 6 a.m. to 6 p.m. Saturday. The outage will affect the following building numbers: 926, 736, 704, 708, 712, 715, 450, 456, 457, 630, 640, 642, 632, 633, 634, 635, 636, 629, 820, 830, 836 and 847. For questions or more information, call Venson Shelton at Ext. 5360.

Education center relocation

The education center will temporarily relocate from Room 2 to Room 13 of Building 916 Thursday through May 25. All services will be available, except there will be no testing on May 17, May 19 and May 24. For more information, call Ext. 2562.

Soccer balls for Iraa

The YMCA Board of Directors and Amory Kiwanis Club are currently collecting new or used soccer balls to send to Iraq. Some troops have discovered the children there enjoy soccer. Donations may be dropped off at the fitness and sports center. For more information, call Ext. 2772.

Nature Trails

Many people are unaware of the opportunity to walk, run, bike or horseback ride along Columbus AFB's Timberlane Nature Trail. Along the trail, various wetlands, trees and countless wildlife can be found. To reach the recreational area, follow Independence Ave. to the runway area. Signs found alongside the dirt road toward SAC Lake offer directions to the beginning of the trails. Maps are available at outdoor recreation. For more information, call Sarah Fafinski at Ext. 7958.

Upgrades retrofit T-38 with latest technology

1st Lt. Brooke Davis Air Force Flight Test Center

4 SILVER WINGS April 22, 2005

EDWARDS AFB, Calif. — Airmen from the 416th Flight Test Squadron wrapped up flight tests on software upgrades in an ongoing T-38 Talon avionics upgrade here recently.

The latest set of upgrades is the third in a series. During this series, testers performed about 18 sorties October through April, validating the new software, officials said.

Overall, the program is an integrated modernization of the T-38 cockpits to support mission-ready fighter training and converts older models to the newer C-model configuration, said 1st Lt. Lisa Gerlt, the 416th FTS program manager.

The upgrades provide a modern cockpit and navigation capability for training of bomber and fighter crews, she said.

"This process allowed corrections and improvements to be made on the system incrementally with the yearly block upgrades," she said.

A T-38 Talon soars after taking off from the main runway at Edwards AFB, Calif. Airmen from the 416th Flight Test Squadron wrapped up flight tests on software upgrades in an ongoing avionics upgrade program recently.

This upgrade is a composite of coded crew training device deliveries and instructions that are stored permanently retrofits, air vehicle retrofits and in read-only memory and software. They upgrades to spares, said Tim Kang, a include changes to the program's air 416th FLTS project engineer. vehicle production modification, new air
The updated aircraft will possess more evaluation.

air-to-ground combat training capabilities, Mr. Kang said. It also will improve mission planning, post-flight analysis and enhance uploading and downloading mission data.

Flight testing occurred in three phases: The first preliminary test included three flights flown in October, the second included five flights flown November through December, followed by 10 developmental testing and evaluation flights flown since February, officials said.

The preliminary test phases allowed testers to collect and deliver flight data for preliminary, developmental and operational assessments, Lieutenant Gerlt

The PT phases of each upgrade allowed the manufacturer to make adjustments, and working this way saved time and money, she said.

Once data collected from the last series of flights is analyzed, testers will pass the upgrades to testers at Randolph AFB, Texas, for operational test and

STEPping Up

Command Chief Master Sgt. Jeffery Bowes congratulates newly promoted Tech. Sgt. Henry Stephens, 14th Civil Engineer Squadron, with the help of Col. Stephen Wilson, 14th Flying Training Wing commander. Thursday at the fire department, Sergeant Stephens was selected for early promotion under the Stripes for Exceptional Performers program for his outstanding achievements in the Air Force.

Airmen disciplined for AFIM misuse

Master Sgt. Mitch Gettle Air Force Print News

WASHINGTON — Air Force officials are taking a hard look at the misuse of the Air Force Instant Messenger service on Air Force

Airmen were found violating standards of conduct prompting officials to clarify responsible communication over the service.

"Air Force Portal users took offense to the inappropriate comments made by 11 individuals and reported the misuse to local helping agencies," said Maj. Anthony Sansano, Air Force military equal opportunity chief. "It's a readiness issue. Unprofessional communication is contrary to good order and discipline and counterproductive to mission accomplish-

Of the 11 Airmen reported, six have received some form of administrative or disciplinary actions. One Airman received a letter of reprimand, an unfavorable information file and was removed from command on the basis of inappropriate dialogue in a chat room. Five Airmen received actions ranged from a verbal counseling to letters of reprimand, and five responsibility and accountability.

others are still pending actions.

The growth of the instant messenger in civilian society has developed an "anything goes" culture where people may say and do things they would not do in person, said Maj. David Gindhart, Air Staff lead for the Air Force Portal.

"As with telephone calls or e-mail, the instant messaging and public and private chat rooms are subject to limitations and monitoring at all times," Major Gindhart said.

Also, users have a few ways to monitor and correct misuse on the messenger.

"Airmen are encouraged to deal with issues at the lowest possible level which can be as simple as (instant messaging) the individual and telling them to stop," Major Gindhart said. "Users also have the option of clicking the 'report misuse' button, which prompts them to identify the offending (individuals) and the type of inappropriate use. The report and the chat room transcript will be routed to the alleged offender's commander for action."

In addition, while the instant messenger supports informal dialogue, the Air Force military rank structure establishes expectations for

AQS change The Japanese Animal Quarantine Service has revised its procedures for importing pets, specifically dogs and cats. The new process is lengthy and planning is critical. For more information, call the traffic management flight at Ext. 2573 or visit www.maffags.go.jp/english/ryoko/ba.htm.

be written down on a grocery list.

touched down in November 2002 is a perfect example.

Additionally, terrorist attacks, robberies, recalls and a number of other items fall under the heading of attack response.

In any category, the wing must adequately respond to a dynamic, "haven't-quiteseen-that-before" situation,

in which we may not have all the facts. An effective contingency response relies on a coordinated base effort.

During the contingency response, the wing will be evaluated in its ability to detect and report a situation. Then the base must execute an effective command and control system to respond, contain and secure the scene

In addition, the wing must control Another contingency is a natural disas- information to the media, protect people,

The Commissary Roadblock

inform higher headquarters, evaluate the force protection condition, evaluate or buy additional contract support, consider all legal issues and prevent an escalation of the situation.

The commander must then decide how to employ all on- and off-base capabilities and people, to include the specialized teams such as shelter management, personnel, mortuary affairs, bomb disposal, readiness support, hazardous material or contamination control.

Expected responders, such as medical, civil engineering, fire and security, are certainly critical to the wing's response. Every agency, service or squadron has a commitment to this effort.

Another significant wing commitment is our requirement to provide agile combat support capabilities — one of six Air Force core competencies — to combatant commanders.

The wing has more than 250 Unit

Type Codes. A UTC is a mix of a given quantity people and/or equipment required by a combatant commander, such as U.S. Central Command or U.S. Special Operations Command. That's a significant commitment of more than 500 personnel, including firefighters, security teams with weapons and dogs, command post personnel, postal workers and many others — nearly every specialty except

Currently, we have 21 people deployed to combatant commanders in support of Operations Iraqi and Enduring Freedom and other contingencies; and the wing deployed 125 people in 2004.

This base has a proven record of outstanding ability to exceed standards, train personnel and deploy them to Areas of Responsibility while maintaining the highest standards in our primary mission. Let's continue to uphold that

WHO'S YOUR WINGMAN?

THERE ARE SOME THINGS IN LIFE THAT JUST WEREN'T MEANT TO BE HANDLED ALONE ...

IF YOU NEED A WINGMAN THE BASE CHAPLAIN, THE LIFE SKILLS COUNSELORS, AND THE PEOPLE AT 1-800-SUICIDE (784-2433) ARE READY TO HELP.

ONE SUICIDE IS ONE TOO MANY

(Continued from Page 7)

While flying F-16s in Japan, my squadron would craft tried to attack.

Capt. Bob Pardo and his weapons system officer, 1st Lt. Steve Wayne, were part of a strike force of F-4s attacking steel mills near Hanoi, Vietnam. They took damage during their bombing run, but they could have made it to a tanker aircraft to get enough fuel to get

Lt. Robert Houghton, wasn't as lucky and suffered left the target area, it became obvious that Captain out over hostile territory.

Drunken driver

Traffic deaths take emotional toll

Master Sgt. Kimberly Spencer 59th Medical Wina

LACKLAND AFB, Texas — I tell myself I won't cry this time.

It's been almost six years since my brother was locked up for vehicular manslaughter.

As I sit and wait for him to be released into the visiting area, I remind myself, I will be strong, I will not cry this time.

I'm thankful that he somehow survived the wreck he caused. I deal with the guilt that comes when I think of the mother and daughter in the other car who didn't.

For my mother and stepfather the emotional and financial tolls have been devastating. Although he is one of six children, he is my mother's only son.

For my sisters and me, it has been an emotional roller coaster. Some of us have forgiven him and support him to the best of our ability. Others choose to pretend he no longer exists.

I try to visit him at least once a

out of Vietnam over to Laos. Both aircraft ran out of

fuel, forcing all four aviators to eject, but everybody

was rescued by helicopter and returned to their home

An example closer to home involved my wife when

she was an Air Force lieutenant working in a squadron

At the time, she was earning foreign language pay

for speaking French; little did she know it would land

her in Haiti interpreting for Marine patrols searching

The patrols needed her skills to question the locals,

and my wife relied on the Marines to watch her back,

the Haitian Creole language. During every patrol, two

always knew who they were and where they would be.

The first thing that I want to highlight here is the

wingman to "check his six" for any threats, the wing-

month. The 12-hour drive gives me time to think

I think about how this event has devastated so many lives; how that split-second decision, to get behind the wheel, has turned into a lifetime

er never realized he

had forgotten to put his lights on as he pulled out into the path of a car holding a family of five. They didn't see him until it was too late.

T.C. finally arrives and checks in with the guards. This is when I feel the happiest, finally getting to see my

baby brother again. I hug him briefly as a meaty-looking guard

We sit across the table from one another and chat. We've learned to keep it light, talking about something interesting he has read, or

how work is going for me. I try to update him on family events without dwelling on the things he is missing

Before I know it, the guard is giving us the five-minute warning. This is where it gets tough for me. I hug In his intoxicated state, my broth- him hard, holding on despite anoth-

> er frown from the meaty guard. Inevitably, he pulls away and heads for the door back to his cell. As he turns to look at me one last time, and I see the sadness in his eyes, I feel the tears melting my resolve.

Slowly I make my way back to the outside, through the

stale air, past the clanking metal doors running on molasses.

As I exit the last door, I give up and let the tears fall.

Next time I will be strong, I tell myself. I won't cry — next time. I've got 54 years to see if I can do it.

practice "wounded duck exercises," where one aircraft in the formation pretended it had suffered battle damage, requiring it to limp slowly back to base. In a fourship, the flight lead would direct two aircraft to sweep ahead for enemy fighters and have the third fly an "S" pattern over the "wounded duck" in case an enemy air-

favorites is known as "Pardo's Push."

we could be the one needing help.

"I think about how

this event has

devastated so

many lives; how

that split-second

decision, to get

behind the wheel,

has turned into a

lifetime of pain."

My dad has a story from his Navy days that really shows mutual support in action off duty. While on liberty during the Korean War, someone slipped him a "Mickey" hoping to rob him or worse. Fortunately, my dad and his shipmates always went out in groups, and when a buddy saw him pass out, he simply threw my dad over his shoulder and took him back to their ship.

Lesson #1: U.S. Air Force aircraft never go "downtown" alone and neither should we. Even when at a restaurant, my wife makes my daughters go to the bathroom as a "two-ship."

Lesson #2: Formations need flight leads, and off duty this is the designated driver. Everybody else is a

The DD's mission is to make sure everybody has fun, gets home safely and lives to fight another day. Just as a flight lead would never leave a wingman over hostile territory and vice versa, DDs and their "formations" always stick together until everybody is back

Hopefully by now you've figured out that mutual support boils down to this: 24 hours a day, seven days a week, 365 days a year, all of us are part of one Air Force family responsible for looking out for one another. Sometimes it will involve extra effort and sacrifice, but the payoff is always well worth it and will one day likely be paid back in kind.

SUPPORT

Throughout military history there are countless examples of such mutual support and one of my

Their wingman's F-4, with Capt. Earl Aman and 1st extensive damage to its fuel tank. As the two aircraft Aman and Lieutenant Houghton would have to bail

But Captain Pardo refused to leave his wingman, and he used his F-4 to literally push his crippled wingman

"Can I help you find something?" I asked. He hesitated, and then told me he was looking for soap. "Any one in particular?" I continued.

"Well, I'm trying to find my wife's brand of soap." I started to hand him my cell phone to call her when he said, "She died a year ago, and I just want to smell

Chills ran down my spine. I don't think the 22,000pound Mother of all Bombs could have had the same impact. As tears welled up in my eyes, my half-eaten grocery list didn't seem so important. Neither did fruit snacks or frozen pizza.

I spent the remainder of my time in the commissary that day listening to a man tell the story of how important his wife was to him—how she took care of their children while he served our country.

A retired, decorated World War II pilot who flew missions to protect Americans still needed the protection of a woman who served him at home.

My life was forever changed that day. Every time my husband works late or leaves before the crack of dawn, I try to remember the sense of importance I felt that day in the commissary. Sometimes the monotony of laundry, housecleaning, grocery shopping and taxi driving leaves military wives feeling empty — the kind of emptiness that is rarely fulfilled when our husbands come home and don't want to or can't talk about work.

We need to be reminded of the important role we fill for our family and for our country.

(Editor's note: "The Commissary Roadblock" is one of more than 100 stories that appear in Chicken Soup for the Military Wife's Soul, available in local bookstores Tuesday. The author is the wife of Maj. Jeff Swiney of the 48th Flying Training Squadron.)

Mutual support can help resolve recent challenges in AF

Lt. Col. Frank Rossi 50th Flying Training Sauadron

Lately, a lot of Air Force leaders have been telling us that "mutual support" and "knowing who your wingman is" are the solutions to recent challenges ranging from rising suicide rates to driving under the influence offenses.

However, these terms may not mean much to people who don't have a lot of military flying experience. Given recent events, it seemed appropriate to share my thoughts on why those of us who grew up flying airplanes hold these ideas so dear to our hearts and think they have as much application off duty as when strapping in a jet.

Webster defines mutual as "directed and received in equal amount." The military defines support as "when one should aid, protect, complement or sustain another."

of two or more aircraft, where there is one flight lead and the other aircraft are wingmen. The flight lead is responsible for his formation, getting them to the target and back safely while accomplishing assigned missions. A wingman's job is to be in position,

look for threats, do what he's told and support the flight

Mutual support is the foundation for flying in formation

BLAZE TEAM burns midnight oil for cancer victims, survivors

Airman 1st Class Cecilia Rodriguez 14th Flying Training Wing

More than 50 people from Columbus AFB joined the local community to support the American Cancer Society's Relay For Life event Friday and Saturday at Saunders Field in downtown Columbus.

Four different teams from the base contributed a total of \$4,400 to benefit the society's research and programs.

Participants from Columbus AFB took turns walking or running laps during the 12-hour event, and a handful of BLAZE TEAM members remained overnight.

Airman 1st Class Tess Kelley, 14th Comptroller Squadron, participated in the event for the first time this year.

"I chose to participate this year because I feel it is a worthwhile cause," she said. "You never know when someone dear to you may need an active and helpful support line. I believe that these types of fundraisers are important because they raise community awareness and help those who may not be able to help themselves."

The Columbus AFB 14th CPTS team placed fifth for most competitive team and received the Relay For Life spirit award for their participation

and positive attitudes throughout the night

Cancer survivor Capt. Keith Vollenweider, 14th Medical Operations Squadron, found encouragement in the enthusiasm of the relay partici-

"It's great to see the Columbus community join together to help fight cancer in all its forms, and to support both victims and their families," he said. "I hope events like this will help remove the stigma of cancer as incurable and encourage people to make prevention part of their lifestyles."

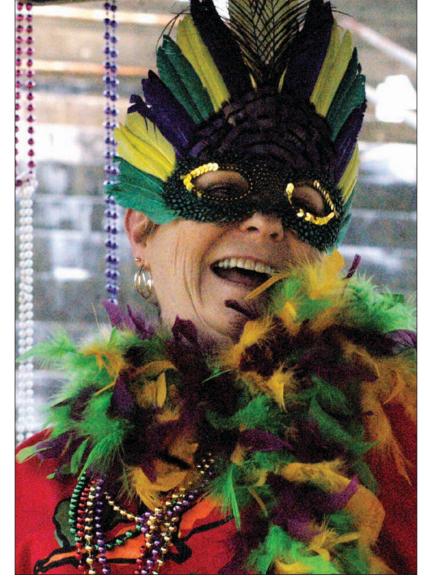

In May 1985, Dr. Gordy Klatt, a colorectal surgeon and avid runner, completed a 24-hour walk/run around a track in Tacoma, Wash., and raised \$27,000 to support the American Cancer Society. The following year, 220 people on 19 teams joined Dr. Klatt in this overnight event, and the American Cancer Society Relay For Life was born.

Almost 4,000 communities in the United States and eight foreign countries annually participate in Relay For Life.

The event reinforces a three-pronged motto: The hope that those lost to cancer will never be forgotten, those who face cancer will be supported and one day, cancer will be eliminated. For more information about the society and its programs, visit www.cancer.org.

Base Notes

Top-3 steak sale

The Columbus AFB Top-3 organization sponsors a steak sale from 11 a.m. to 1 p.m. April 29 at the community center. Cost is \$8 for an 8-ounce steak, baked potato, baked beans, roll and a beverage. All proceeds will benefit the Enlisted Heritage Foundation.

COSC social

The Columbus Officers' Spouses' Club board members host a southern belle bingo COSC social at 6:30 p.m. May 10 at the Columbus Club. Officers for the 2005-2006 will be elected. The menu is fried chicken, cost is \$10 per person and Columbus Club members receive a \$2 discount. New members are welcome. For reservations, call Cammy Cheater at 434-8915 by noon May 5.

Case lot sale

The commissary and base exchange will sponsor a case lot sale from 10 a.m. to 5 p.m. May 6 and from 9 a.m. to 5 p.m. May 7. For more information, call Ext.

MSU electronic classroom

Mississippi State University will offer BL 8112, a law ethics dispute resolution class, via the electronic classroom June 1 through Aug. 5. Classes will be from 6 to 9 p.m. Thursdays in Classroom 11 of Building 916. For questions or more information, call the education center at Ext. 2562.

Commissioning opportunity

Enlisted Airman younger than 31 years old and with one to six years of

service in the Air Force are eligible to apply for the Scholarships for Outstanding Airmen to ROTC program.

SOAR is a wing commander-endorsed program, and gives squadron and group commanders the opportunity to nominate Airmen they feel would make outstanding Air Force officers.

Candidates are selected at the major command level, and Air Education and Training Command has seven slots available for Fiscal Year 2005.

Applications should be reviewed by the education center staff no later than Sept. 15; individuals that require waivers must have their packages reviewed no later than July 15. For more information, call Larry Brooks at Ext. 2562 or visit www.afoats.af.mil/AFROTC/EnlistedCo mmissioning/FY05soar.htm.

Family Support Center

(Editor's note: All activities are offered at the family support center unless otherwise specified. For more information about any of the activities listed, call Ext. 2790.)

Spouse welcome

A welcome reception for spouses new to Columbus AFB is from 10 to 11 a.m. every Wednesday at the Magnolia Inn Lobby. Spouses will receive gifts and information about the family support center.

Local employment

A workshop about employment opportunities with local businesses, the 14th Services Division and government applications is from 1 to 2 p.m. every Wednesday.

Sponsorship training

A workshop designed for all unit introduction monitors is at 9 a.m. Tuesday. Training includes the importance of

effective sponsorship and resources available for both sponsors and newcomers.

Bundles of Joy

A workshop for active-duty Air Force spouses who are pregnant or have a child four months or younger is from 2 to 4 p.m. May 3. Speakers will provide information about finances, labor and delivery, and infant care. The Air Force Aid Society provides a gift package valued at more than \$50.

A workshop about different types of resumes and how to write one effectively is from 9 to 10 a.m. May 4.

Heart Link

The next Heart Link spouse orientation is from 8:45 a.m. to 1:45 p.m. May 9. Spouses will receive prizes and information on protocol, finances, benefits, helping agencies and local conditions. Registration is required by May 5.

Air Force Aid Society

The AFAS offers 24-hour emergency assistance. Possible aid includes interestfree loans, grants, car repairs and emergency travel. Call the family support center for more information.

Female Airman tosses hat in boxing ring

Tech. Sgt. Steve Goetsch 90th Space Wing

F. E. WARREN AFB, Wyo. —

Besides the issued M-9 or M-16, an installation entry controller here packs additional weapons like a left hook. upper cut and jab that would make even the boldest intruders stop in their tracks.

Senior Airman Celsa Reyes, with the boxing team here, is an up-and-coming boxer who, when not pulling guard duties for the 90th Security Forces Squadron, can be found in the gym or on the road running, sparring and training.

For this Los Angeles native, boxing started early, and it was a family affair.

"I started boxing when I was 13. My brother wanted to start boxing, and I did not want to get left behind," Airman Reyes said.

She said her parents were not too keen on the idea of seeing their daughter in the ring.

"My dad is not really a fan of me boxing, and my mom thinks I am crazy," she said.

Besides personal commitment to the sport, she said she gets inspiration from one of her heroes.

"I admire Julio Cesar Chavez," Airman Reyes said. "He was a very talented boxer who left everything in the ring, and I admire that."

Airman Reyes' dedication and enthusiasm to "leave everything in the ring," has garnered praise from her coach, 1st Lt. Rodney Ellison, of the

Senior Airman Celsa Reyes zeroes in on her opponent at the 2005 Armed Force Boxing Championships at Fort Huachuca, Ariz., recently.

319th Missile Squadron.

"I think her best attribute is her willingness to work hard," he said. "There were many times when her schedule didn't allow her to practice with the team, so she would set up practices on the weekends or during the day when she had to work night shift so she could still get her training

Training is a tough mixture of ring time, running and lifting weights. There is also a lot of work on technique. Lieutenant Ellison said Airman Reyes had problems with some of her

"She would throw her hook so wide that her opponent would see it com-

ing," he said. "We worked on it for a little while, and she kept it closer and made it faster. I would have to say that it is one of her best punches now."

That is bad news for her opponents. A few have already felt the sting of this training tip. Though there is no knockout in amateur boxing, Airman Reyes said she has forced a couple of "referee stops contest" decisions.

She said she puts in an average of eight training hours a week. That is a lot considering her sporadic schedule as a security forces Airman. Her training regimen is so tough it has even changed the weight class she boxes in. She boxed in the 130-pound class here. out when she went to Texas, she boxed in the 114-pound weight class.

"Dropping that much weight is not easy, it took hard work and determination," Lieutenant Ellison said.

All of the training is paying huge dividends for Airman Reyes. She is currently ranked No. 2 in the country after a second-place finish at the U.S.A Boxing national amateur tournament. That ranking just adds to an evergrowing boxing resume. This year, she has already won a San Antonio Golden Gloves title and taken second place at this year's Armed Forces Boxing Championships.

Though Airman Reyes said she has enjoyed success early in her career, she is optimistic and has high hopes for

"I want to be No. 1 in the nation and win the Armed Forces Championships," she said.

Shorts

Fitness center closure

The fitness and sports center will close Saturday due to a power outage. For more information, call Ext. 2772.

SILVER WINGS 19 April 22, 2005

Lady BLAZE softball

Females interested in playing intramural softball for the Lady BLAZE team can call Shera Ferrell at 434-6991 or Stephanie Clark at 574-7287 for more information.
